Signal Maintenance Supervisor

Come join an industry leader using new technology for commuter rail services!

Denver Transit Operators, (DTO) is a privately held company that has a 29-year contract with RTD to operate and maintain the new commuter rail system within the Greater Denver Metro area.

Denver Transit Operators is looking for a self-motivated individual who possess an eagerness to learn new systems and troubleshoot mechanical and electrical problems while working as a supervisor for our Signal Maintenance team.

This is a full-time position with a starting salary of \$80,000 to \$90,000 annually.

Benefits:

- Medical, Dental, Vision
- 401(k)
- Paid holidays
- PTO & Sick Leave Pay
- Ability to work in a CLEAN state-of-the-art repair facility.
- Free RTD Light Rail & Commuter Train pass

This position is responsible for maintenance, testing, and repair of the commuter rail train control and signal system in accordance with state regulations and FRA regulations.

The primary focus for this position will be directing and organizing daily work crew activities to assure the safe and reliable operation of the commuter rail system. The Signal Maintenance Supervisor is also responsible for:

- Assigning and directing the work crew by managing the inspection, testing, maintenance, and repair of commuter rail crossings and signal systems
- Provides guidance and clear expectations to work crew and holds all employees accountable for work product and adherence to all guidelines, policies, and regulations.
- Performs efficiency testing of the work crew and provides guidance, feedback, coaching, and mentoring.

- Prepares reports and written procedures for system inspections and preventative maintenance, including but not limited to, filing FRA credible reports of crossing malfunctions, hours of service, PM compliance, and special projects.
- Maintains timely and accurate records of inspections, repairs, calibration tests in RailDocs and AssetWorks LinearFocus module
- Oversees testing and repair of faulty equipment by applying knowledge to diagnose the cause of the malfunction.
- Reviews and analyzes maintenance activity reports for trends in repairs, equipment failures, and parts usage to determine if corrective action is needed.
- Schedules required safety inspections and tests of train control and signal equipment
- Assists with workplace investigations by determining cause and implementing corrective actions
 - Reads, understands, and interprets schematics, service and safety manuals, electrical drawings, ElectorLoGIX logs, and circuit operations
 - Work alone or with Signal Maintainers to complete maintenance tasks as required for repairs or on-time inspections
 - Adheres to all rules, regulations, standard operating procedures, and contractual obligations governing day-to-day operations
- Complete all other duties as assigned

The ideal candidate will possess the following skills:

- 2 years or more experience in a leadership position working in a maintenance and repair environment
- 3 years or more experience in electrical, railroad signaling, and train control inspection or maintenance and repair
- Ability to comply with all safety rules and instructions including the use of proper personal protective equipment
- Proficient with computer operation, Asset Management software, and the MS Office platform

- Ability to work under tight schedules and deadlines while maintaining system quality and reliability
- Ability to instruct and cross-train staff on inspections, maintenances, testing, and repair assignments
- Ability to prioritize and accomplish multiple tasks with minimal supervision
- Ability to work on non-scheduled emergency call-outs outside of assigned work hours and respond and assist with trouble calls in a timely manner
- Ability to work any assigned shift, including nights, for prolonged periods of time.

Minimum Qualifications for this position include:

- Must be able to work outside in variable weather conditions
- Must possess a valid driver's license and maintain a clean driving record
- Must pass a pre-employment physical examination
- Must be eligible to work in the U.S.
- Successfully pass a pre-employment background check
- Must Pass drug and alcohol screening, and be willing to comply with the DTO Drug and Alcohol Policy

If you are an individual who loves a fast-paced environment, is motivated to work in a startup and growing organization, then please apply at www.denvertransitpartners.com. Applicants who are authorized to work in the US will only be considered for this position. DTO is an Equal Opportunity Employer.
